

GILLETTE TELLS STORY TO JURORS IN MURDER TRIAL

PROSECUTION RESTED CASE AT
HERKIMER AT 10:40 THIS
MORNING.

DEFENDANT TAKES STAND

Important Witness for Gillette is
Said to be Girl Friend of
Grace Brown.

Herkimer, N. Y., Nov. 28.—District Attorney Ward today is searching for a mysterious poison package sent to Grace Brown last June with the belief that the writing on the package will show that Gillette, now being tried for murder, was its sender.

The prosecutor has positive information that a bottle containing oil of sassafras was received by Grace on June 29. She then went to the home of a friend who asked her what she had in the package.

"I noticed while at my house," said Dr. Crum today, "she exhibited peculiar symptoms, but at the time I thought nothing of it. After her death I recalled her symptoms and I am convinced that she was taking oil of sassafras, which had she continued to take it would have killed her."

As it was the poison produced anemia which was commented on by the physicians at the autopsy.

The defense is still preparing its case along the line that Grace Brown determined on suicide if Gillette finally refused to marry her.

Gillette is far from well. His keeper said today that he had lost about 15 pounds since the trial began and he has become irritable. His cheeks are sunken and dark rings encircle his small, deep-set eyes.

The prosecution rested its case at 10:40 today, and at 11:20 today Chester Gillette took the stand in his own defense.

This afternoon Gillette will explain to the jury how the girl on his declaration to marry her endeavored to kill herself. He will tell of the struggle in the boat which capsized and threw them into the lake.

One of the chief witnesses for the defense is said to be a young woman, a confidant of Grace Brown. She is said to have received many letters from Grace in which she expressed the intention of committing suicide if Chester did not marry her.

BANK ROBBERS GOT NOTHING AT MENDON, OHIO

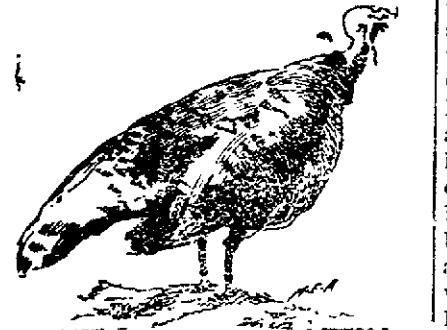

Mendon, O., Nov. 28.—After exploding three charges of nitroglycerin about the vault in the Mendon bank this morning, three masked safe crackers were frightened away by gathering citizens aroused by the noise. The interior of the bank and the vault were badly damaged, but the latter withstood the robbers' efforts. The safe contained \$75,000. The work was done by experts.

FRIGHTFUL SUICIDE OF MRS. TERMAN AT MANSFIELD, O

Mansfield, O., Nov. 28.—Mrs. Clara Terman, wife of a laborer, arose at 5 this morning, saturated her night-dress with kerosene and covered her body with axle grease, then set her gown on fire. Her husband was awakened by her screams and did all in his power to save her life, but to no avail, and the woman died two hours later. Mrs. Terman was troubled several months with nervous disorders.

BELMONT BURNS

Bridgeport, O., Nov. 28.—Fire of probable incendiary origin destroyed all the business houses in the town of Belmont, which has 500 population. A dozen homes, or more, were also destroyed. The loss is over \$100,000.

TILLMAN TALKS AT CHICAGO

Race Question Handled by Senator
In Characteristic Style.

NO DISORDER IN THE HALL

Fifteenth Amendment Roundly Denounced by South Carolina Statesman—Critiques the President For Dismissing Negro Troops and Pays His Respects to Mayor Dunne.

Chicago, Nov. 28.—Senator Benjamin Tillman of South Carolina addressed an immense audience Tuesday night in Orchestra hall, on the race question. The man whom the negro citizens of Chicago had announced their intention of keeping quiet made the most of the opportunity that was given him. Encouraged by his reception, he handled the race question in characteristic style. There was a large force of detectives and police present, but no serious disorder occurred in the hall.

In his address Mr. Tillman said: "I have been told I have been snubbed by the mayor of this city. I never saw Mayor Dunne in my life. I did not ask him to be here to introduce me to this audience, nor did I ask any one else to do so. If any one has been snubbed it is these gracious ladies who planned this meeting to secure money for the Chicago Union hospital, who requested Mayor Dunne, the creature of a political hour, to come forward and add his mite."

Discussing the Fifteenth amendment of the constitution, which he declared gave the negro every right that a white man had, Mr. Tillman stated: "If this law was enforced it would result in two states at least being dominated absolutely by negroes, while four other states would be so near being governed by the negro that there would be practically an equal division of offices."

A voice: "How about the law?"

Senator Tillman: "The law? To hell with such laws."

Senator Tillman then told his audience of the attacks on white women by negroes in the south, and declared that the people of the north were in a great measure responsible for this state of affairs. In conclusion Senator Tillman said: "Now, as a general illustration of the injustice that is sometimes done, President Roosevelt discharged three companies of colored soldiers without a court-martial, and in doing this he punished innocent men for the crime of a few. In doing this he transcended the authority of the law, and he ought not to have done it. No matter what the people in the north may say or do, the white race in the south will never be dominated by the negro, and I want to tell you now that if some state should ever make an attempt to 'save South Carolina,' we will show them in their fanaticism that we will make it red before we make it black."

PEARY HAS NO FAITH IN AIRSHIP SCHEME

New York, Nov. 28.—Commander Peary and Mrs. Peary arrived in New York today from Sydney, N. S., where the Roosevelt is undergoing repairs. The commander was met at the station by a committee from the Peary Arctic club. "I have no faith in the airship and electric sledges for polar explorations," said Peary. He explained that in his opinion the airship has not been sufficiently developed to withstand the atmospheric conditions in the arctic regions.

DEBT WIPED OUT

Washington, Nov. 28.—Trustees of the Catholic University of America met in semi-annual session at MacMabon hall at the university. The treasurer, Michael Jenkins of Baltimore, reported that the university is entirely free of debt, despite the fact that the endowment amounts to only \$400,000 and that its only other source of revenue is from collections taken in the various Catholic churches throughout the country for this special purpose.

HEIDT JOINS COMMAND.

Washington, Nov. 28.—Instead of undergoing a court martial Captain Grayson B. Heidt will proceed to Cuba from San Francisco to join his regular cavalry command in accordance with an order issued at the war department today. According to a story from Des Moines, Iowa, a few weeks ago, his wife, formerly Miss Grace McKinley, a niece of the late President McKinley, violated the army regulations by accompanying her husband as a stowaway to Honolulu. This offense would make Heidt the subject of court martial, but orders to join his old command are held to verify the denial by the war department officials that Mrs. Heidt went with her husband.

LAWYERS WHO APPEARED TO DEFEND THE NEW YORK CENTRAL

JOHN D. LINDSAY

New York, Nov. 28.—After hearing argument by Joseph H. Choate, former ambassador to the Court of St. James, and deliberating two hours, a jury in the United States Circuit court rendered a verdict convicting the New York Central Railroad company of having given rebates of \$25,000 to the American Sugar Refining company. This was the second conviction against the railroad. Judge Holt allowed the railroad company until November 20 to make a motion for an arrest of judgment.

For accepting the rebates the American Sugar Refining company was sent to trial the next morning. Mr. Choate, Alton B. Parker and John E. Parsons were counsel, as telegraphed the Advocate yesterday. The Sugar company was fined \$18,000 Tuesday.

Mr. Choate argued that the Elkins act, under which the railroad company was prosecuted, could not be retroactive, and therefore had not been violated, because the agreement between the New York Central and the sugar company had been made and the shipments made and delivered before the measure was enacted. Henry L. Stimson, United States District Attorney, answered this by saying the illegal act had not been completed until payment of the rebates had been made, which was not until after the law had gone into effect.

FIVE KILLED AND SCORE INJURED CIGAR STAATS BLAZE IN ST. LOUIS.

St. Louis, Nov. 28.—A cigar stump carelessly thrown into an elevator shaft which had been converted into a clothes closet, is supposed to have been the cause of a fire in the temporary barracks of the Salvation Army at Ninth and Market streets this morning in which five men met death by jumping from windows and a score were injured. More deaths may result. The building was an old one and was gutted. The financial loss will not be great.

DEAD.
Oscar Davis, 67, employed in the hotel, formerly of the Quincy, Ill., soldiers home; jumped from third floor.
Unknown man, 40, bald, 5 feet 9 inches, 165 pounds; jumped from third floor.

BRIDEGROOM-ELECT GOES TO PRISON AND THE YOUNG WOMAN IS PROSTRATED.

Findlay, O., Nov. 28.—Three weeks ago Harry Bowsher went to Blanchard township and secured employment on the farm of Edward Hines. There he met Miss Anna Baker and they were to have been married tomorrow, but a policeman appeared yesterday and took the bridegroom-elect in charge. He will be returned to the Mansfield reformatory. The superintendent of the institution wants Bowsher to explain why he left there by paying a couple of iron bars and left the community without even a handkerchief. Miss Baker is prostrated.

WILL TROUBLE START WHEN CARUSO SINGS?

New York, Nov. 28.—A special detachment of police will be on guard at the Metropolitan opera house tonight with orders to arrest any one who cries "monkey house." Enrico Caruso is to appear this evening, according to the original plan. It is expected that many of Caruso's devotees will be on hand to cheer him. Last night the cries of the crowd were so loud that the police were obliged to seize the opportunity to try to quiet him. It has been hinted that the monkeys will be let loose in the opera house when Caruso appears.

KING PETER IS TO BE DEPOSED.

Manchester, England, Nov. 28.—King Peter of Serbia will soon be deposed and it is more than probable that Prince Arthur of Connaught, will be offered his throne according to a Manchester dispatch today. King Peter's inability to cope with the situation in Serbia is regarded as the cause of his deposition. Queen Alexandra of Serbia, who is in England on a purpose of her visit, is said to be urging the selection of Prince Arthur.

CLEVELAND HAS MURDER MYSTERY

(Bulletin.)
Cleveland, Nov. 28.—In a clump of bushes in a deep ravine in East Cleveland, land surveyors today discovered the bruised and almost nude body of a young woman who apparently had been dead for several days. The authorities are working on the theory that the woman met death by violence.

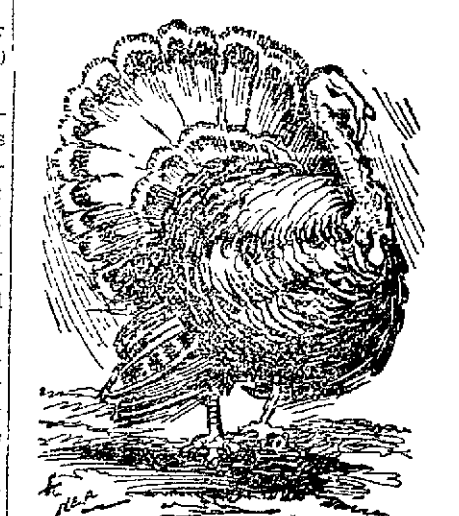

JOSEPH H. CHOATE

AUSTEN G. FOX

L. Stimson, United States District Attorney, answered this by saying the illegal act had not been completed until payment of the rebates had been made, which was not until after the law had gone into effect.

Judge Holt ruled against Mr. Choate before he sent the case to the jury.

PRESIDENT'S TURKEY WEIGHS 28 POUNDS

Washington, Nov. 28.—Roosevelt's Thanksgiving turkey arrived today from the farm house of Horace Vose, of Westerly, R. I., who has furnished turkeys for the White House for many years. The White House dinner tomorrow will be served at 7:30 p. m., and the President and family will be joined by Mr. and Mrs. Longworth and perhaps one or two other friends.

WITH ALL HANDS

Canadian Steamer Foundered in the Recent Storm.

Whitton, Ont., Nov. 28.—The coasting steamer J. H. DeLor, owned by the Crawford Tug company, a local concern, foundered off Cape Cod Thursday afternoon and all hands were lost. The crew consisted of 12, all from Whitton, and the number of passengers is estimated at 16. The J. H. DeLor, which sailed from Owen Sound, Ontario, and Manitowish Island port, was one of the staunchest steamers on the Georgian bay, and was crewed by a crew of large experience. Part of the cabin, a lifeboat and two unidentified bodies have been found by Indians on north shore of the Chatham Islands.

METCALF SUBMITS REPORT

Facts, Not Deductions, Wanted by the President of Those Who Would Have Case of Negro Troops Reopened—Special Message on the Canal and Porto Rico.

Washington, Nov. 28.—The president believes the people of Porto Rico are entitled to American citizenship and will recommend that this be granted to them in a special message to congress. The president has expressed the opinion that it is lamentable that they do not now enjoy this right.

President Roosevelt holds he has the power to reconstitute any of the members of the three companies of the Twenty-fifth regiment of colored infantry who were discharged without honor as the result of the trouble at Brownsville, Tex., some time ago, if the circumstances of any individual case justify such action. Whether he will avail himself of that power will depend on such evidence that may be presented to him in the case of any one or more soldiers which will tend to clearly exculpate them from any participation in the incident. This is in conformity with the announcement he made while away to Secretary Taft when the latter had telegraphed the president stating that application had been made by a number of persons for a rehearing. The president wants evidence, not deductions, as he told some of his callers, of nonparticipation before anything may be done.

The president had a conference with Secretary Metcalf at the White House regarding the alleged discrimination against the Japanese residents in San Francisco. More than a month ago, when the agitation affecting the alleged discrimination against the Japanese in San Francisco was at its height, the president sent Mr. Metcalf to that city to make a thorough and exhaustive investigation with view to learning at first hand the exact condition of affairs. It was charged that the alleged discrimination consisted among other things of denying the Japanese equal school privileges with the whites, and that there had been threats and overt acts against Japanese merchants. Mr. Metcalf's report is now ready and was considered very fully by the president. The secretary has uniformly declined to discuss with the newspapers any of the conclusions he has reached, but it has been generally understood that it would show that the people of San Francisco maintained that what they had done in the matter of school accommodations was entirely within their rights and that the whole matter was one of local administration.

Whether the president will make Mr. Metcalf's report public has not been determined. He will give the question full consideration before taking any further steps. He has expressed anxiety that all cause for complaint on the part of the Japanese be removed, and has stated that he will do his utmost to bring about a satisfactory settlement of the whole matter.

BREWER'S WIFE PLEADS NOT GUILTY AT SIOUX FALLS

A message from Sioux Falls, South Dakota, says a plea of not guilty was entered by Mrs. Emma Kaufmann, wife of the wealthy brewer, Mr. Moses Kaufmann, when arraigned before Judge Jones in the state circuit court on a charge of murdering Miss Agnes Pohls, a 16-year old domestic, who was in Mrs. Kaufmann's employ. Notice was given that a continuance of the case would be asked.

Mrs. Kaufmann's son is well known in Newark and in Granville where he attended college last year.

DISMISSED

From the Office of District Attorney For Porto Rico.

Washington, Nov. 28.—President Roosevelt directed the dismissal from office of Noah B. K. Pettigill, United States district attorney for Porto Rico. Before the president left Washington on his Panama trip charges affecting Mr. Pettigill had reached here, and were referred to the attorney general for his consideration. These were that, while district attorney, he had in the capacity of a private attorney entered suit against another government official charging gross misconduct in office. During the president's absence Attorney General Moody received information of the charges from Mr. Pettigill, but this was not satisfactory to Mr. Moody or the president.

Young Woman's Arrest Follows Investigation Made Into Deaths of Her Two Children.

(Bulletin.)

Philadelphia, Nov. 28.—Mrs. Bridget Carey, the frail little woman arrested on suspicion of having poisoned five persons, including two of her own children and her husband to obtain the insurance on their lives, is a wreck today at police headquarters. Doctors are with her but it is doubtful whether she can be arraigned for several days.

Philadelphia, Nov. 28.—The most remarkable case of wholesale poisoning of persons to secure insurance money that has ever been unearthed in this city is charged against Bridget Carey, who has been arrested. The woman, who is 32 years old, is charged with having poisoned her husband, Patrick; her two children, Mary, 8, and Annie, 6, who died a week ago, and Patrick and Cecelia Cook, tenants in the Carey house. All of the alleged victims died within 11 months, and the police allege that Mrs. Carey benefited by their deaths to the extent of \$1,000 through the collection of insurance. The woman's arrest followed an investigation made into the deaths of her two children, which occurred last week, the coroner's physician reporting that an analysis of their stomachs showed traces of arsenic.

According to Captain of Detectives Donaghy it was learned that the children were insured for \$125 each, and that Mrs. Carey collected this amount after their deaths. The police officials say they learned that the woman had secured rat poison, and on further investigation it was found that Patrick and Cecelia Cook, brother and sister, who lived with Mrs. Carey, had died within a few months under suspicious circumstances.

Miss Cook had been the lessor of the house and Mrs. Carey was a tenant. The police officials say that Miss Cook was insured for \$200 in favor of Patrick Cook, her brother, and that on Aug. 13 she died. Patrick had been insured for \$500 in favor of his sister. He collected the insurance on her policy after her death and Mrs. Carey took up the lease of the house. Thereupon Patrick Cook made his insurance in favor of Mrs. Carey, and shortly thereafter was stricken ill and died.

About 500 Unorganized Employees at
New Kensington Cause Suspension
of the Works.

New Kensington, Pa., Nov. 28.—About 500 unorganized employees of the American Windowglass company, one of the largest in the world, walked out, causing a suspension of the works. The men are unskilled workmen and are dissatisfied with the wages paid. The men are given a percentage based upon the number of boxes of glass made daily, and under this scale say their wages average only \$1.50 a day. An effort is being made by the company to replace the strikers with new men.

BESSIE MYERS IS PUT UNDER ARREST

BELIEVED TO BE WOMAN IN BLACK WANTED FOR PASSING BAD CHECKS.

Arrest Made in Zanesville. Woman Was Brought to Newark Wednesday by Capt. Bell.

The mystery of "The Woman in Black," who succeeded in "working" several Newark merchants for small sums of money in passing worthless checks some weeks ago, has been solved. The solution came about when Lieut. Pettit of Zanesville notified Captain Robert Bell of the night force that a woman answering the general description of the woman wanted here, had been located in Zanesville.

Capt. Bell took the first car down Wednesday morning and the woman, Mrs. Bessie Myers, an ex-resort keeper from Indiana, who has been in Newark and Zanesville and vicinity for several months, was arrested and returned to Newark.

Mr. Walter Sperry of the J. Gleitsch furniture store, identified the woman as being the one who passed the worthless check in their store.

An affidavit will be filed against the woman and she will be given a hearing as soon as the affidavit is made.

The Myers woman tried to pass her worthless checks on Elliott & Son, Adolph Schiff, proprietor of The Fair, and Kemper Scott, the East Main street furniture dealer.

When Mayor McCleary called Mr. Sperry to the mayor's court Wednesday morning, it developed that the check which was accepted at the Gleitsch store had passed out of their hands and the making of an affidavit was necessarily delayed. The check was given to another officer in the city.

For Bronchitis

TAKE VINOL

it heals the bronchial tubes and remedies the cough

For centuries old-fashioned cod liver oil has been prescribed by physicians the world over for coughs, bronchitis, weak lungs and consumption, but many could not take it on account of the useless fatty fishy oil which enveloped the medicinal curatives, and it often failed to help those who could take it because it upset the stomach.

Anyone can take the delicious cod liver preparation Vinol, which contains all the medicinal curatives and body building elements of cod liver oil actually taken from fresh cod fish, but no oil or grease, and whenever old-fashioned cod liver oil or emulsions would do good, Vinol will do far more good for all bronchial and lung troubles.

We ask every person in Newark suffering from chronic colds, coughs, bronchitis or weak lungs to try Vinol on our guarantee. Frank D. Holl, druggist.

PROTEST FILED

Against Use of Firearms by Children —Parents Are Urged to Take Action at Once.

(Communicated.)

Noticing the article in Saturday's issue of the Advocate reporting the death of a child at the hands of a youth due to the careless handling of a target rifle. I feel that it is not amiss to write a few lines in remonstrance against the practice of parents allowing their boys to own and handle firearms and even place them in their hands. The instance referred to only emphasizes the fact that parents should exercise more care than they do in permitting this practice, which so often results fatally, and almost invariably to children who are in no way connected with the ownership of the weapons, and whose parents would not tolerate them handling them. The writer has observed boys of immature age in our own city here carelessly handling the deadly rifle and permitted to do so with the full knowledge of their parents. This should not be permitted. Parents take warning and do not allow this dangerous practice to continue, and not only will you be protecting your neighbors' children, but your very own flesh and blood CITIZEN.

DEATHS AND FUNERALS

MR. JAMES COONEY.

An error in receiving a telephone message was responsible for a mistake in the Columbus papers Tuesday. The error caused the published report of the death of Mrs. John J. Carroll of Newark to be announced. The death was that of James Cooney, Jr., brother of Mrs. Carroll. Over the telephone a Columbus undertaker mistook the name "Jimmie" for Minnie, the sister.

Mr. Cooney died Tuesday morning in Newark. For some time he had been employed in the Carroll dry goods store. He was 45 years of age. The funeral will be held at St. Patrick's church here at 9 o'clock on Thursday in Columbus.

MRS. BESSIE McDONOUGH.

Mrs. Bessie McDonough, the only daughter of Mr. and Mrs. George Johnson of 225 West Church street, died at her parents' home Tuesday evening, at 9:30 after an illness of nearly a year. The deceased was aged 23 years and was one of the city's most respected young women. There are a great number of friends who mourn her death sincerely. There remain the husband, Mr. Joseph McDonough, a well known glass blower, the parents, and one brother, Fred, of this city.

The funeral service will be conducted by the Rev. L. S. Boyce, at the home of Mr. and Mrs. Johnson, Friday afternoon at 1 o'clock. Interment will take place in Cedar Hill cemetery.

Only One Genuine BENTLEY'S White Lily Catarrh Cure. All Druggists, 25c. Established 1870. 22-10c

CATARRH BLOOD AND SYSTEM DISORDERED

Catarrh is not merely an inflammation of the tissues of the head and throat, as the symptoms of ringing noises in the ears, mucous dropping back into the throat, continual hawking and spitting, etc., would seem to indicate; it is a blood disease in which the entire circulation and the greater part of the system are involved. Catarrh is due to the presence of an excess of uric acid in the blood. The Liver, Kidneys and Bowels frequently become torpid and dull in their action and instead of carrying off the refuse and waste of the body, leave it to sour and form uric acid in the system. This is taken up by the blood and through its circulation distributed to all parts of the system. These impurities in the blood irritate and inflame the different membranes and tissues of the body, and the contracting of a cold will start the secretions and other disgusting and disagreeable symptoms of Catarrh. As the blood goes to all parts of the body the catarrhal poison affects all parts of the system. The head has a tight, full feeling, nose continually stopped up, pains above the eyes, slight fever comes and goes, the stomach is upset and the entire system disordered and affected by this disease. It is a waste of time to try to cure Catarrh with sprays, washes, inhalations, etc. Such treatment does not reach the blood, and can, therefore, do nothing more than temporarily relieve the discomfort of the trouble. To cure Catarrh permanently the blood must be thoroughly purified and the system cleansed of all poisons, and at the same time strengthened and built up. Nothing equals S. S. S. for this purpose. It attacks the very bottom of the trouble and makes a complete and lasting cure. S. S. S. removes every particle of the catarrhal poison from the blood, making this vital stream pure, fresh and healthy. Then the inflamed membranes begin to heal, the head is loosened and cleared, the hawking and spitting cease, every symptom disappears, the constitution is built up and vigorous health is restored. S. S. S. also tones up the stomach and digestion and acts as a fine tonic to the entire system. If you are suffering with Catarrh begin the use of S. S. S. and write us a statement of your case and our physicians will send you literature about Catarrh, and give you special medical advice without charge. S. S. S. is for sale at all first class drug stores.

I had Catarrh for about fifteen years, and no man could have been worse. I tried everything I could hear of, but no good resulted. I then began S. S. S., and from the first bottle, and after taking it a short while was cured. This was six years ago, and I am as well today as any man. I think Catarrh is a blood disease, and know there is nothing on earth better for the blood than S. S. S. Nobody thinks more of S. S. S. than I do. M. MATSON, Lapeer, Mich.

Knights of Columbus Supper.

The Turkey supper given by the
Knights of Columbus of the East
End, members of the Church of the
Blessed Sacrament, Tuesday night,
was a success, socially and financial-
ly. They were unable to accommo-
date all in attendance, although a
bountiful supply of provisions had
been laid in. The men feel quite
proud of this, their first effort, and
are challenging the ladies to do as
well on another occasion. This was
given as a sort of dedication of the
finishing up of the basement of the
church, and hereafter the socials will
be given in these quarters. They
have a large and commodious dining
hall, a roomy and well equipped
kitchen and a commodious check
room. The decorations Tuesday

night consisting of flags, bunting,
Japanese lanterns and electric lights,
made the place very attractive.

As a result of the President's visit to Panama there has been another change in the management of the affairs of the canal and the canal zone. Mr. Shonts is given supreme direction of affairs with others of the commission as a cabinet, each member heading a particular department. This will give Mr. Shonts the authority possessed by the president of a corporation and make him responsible for the general conduct of affairs. It is to be hoped that this plan will have satisfactory results. The object to be attained is the most vigorous and effective work upon the canal. If M. Shonts cannot secure this, then someone else will doubtless be substituted for him.

So far it has not been announced that any of the Republican officials elected throughout the country will be true to their trusts. It goes without saying that when it comes to trust the Republican officials will prove true to them, especially Congressmen.

The New Jersey legislature has a Republican majority of only three, and the three are Republican reformers who are likely to join the Democrats in the body and make things interesting all along the line in the state where the trusts have flocked for incorporation papers.

Before the Trans-Mississippi commercial congress in Kansas City Secretary Root urged closer relations with the South American republics which he recently visited and advocated ship subsidy as a means to that end. Ship subsidy needs considerable urging upon the part of its friends to make it appear as an issue with a spark of life in it, so great is the opposition to it throughout the country.

COULD WE LIVE 100 YEARS

The Secret of Long Life is Not in How We Eat, But in What We Eat.

Most people wouldn't want to exist for that length of time, but most of us want to live, to say at least seventy-five years, to enjoy the well-earned rest of toil.

We can't live even to that age unless we take care of our stomachs.

The American has a longer life now than he had 50 years ago—statistics say so, and it must be true.

Why is it? Not because he works harder, but because he takes greater care of his machine—his body machine.

He has learned that it is a sin to overwork and burn out the stomach with too much heat producing material—meat, for instance.

Heat is not strength, it is weakness.

Muscle and bone is the strength we need. The heat part will then come naturally and never be excess. Let us not hunt for it.

The hot stomach makes the brain hot.

The hot brain makes dullards of the quick.

Wheat!

The purest wheat, the wheat with the starch, the albumen and the fibrin! This is the fighting material millions are buying today.

Wheat grains have a shell. The shell is not good to eat. You cannot digest it.

It makes the stomach work overtime.

Buy the purified wheat, the pearly grain from which the chaff, the hull and the husk, and everything not rich and delicious is thrown out.

That is Hardyfood.

Every part of it is consumed by the body and taken into the blood to make tissue.

It doesn't make clinkers but it will make you over.

It will give you a new stomach, and clear out your kidneys. What will be the result? You will have better digestion, no constipation, full nutrition.

You will endure hardship better because it will give you power and strength in muscle and brain force.

Your mind will be clear, active and healthy.

Hardyfood is cooked ready to serve.

Eat it with cream, you will find it delicious.

The stomach grabs at it, that is why it satisfies you.

Remember that Hardyfood has all the good that meat has, and three times more.

Meat has a small part of what wheat has, and three times less.

But you needn't stop eating meat altogether. A little now and then is needful. But cut down your allowance and try Hardyfood.

From the time you try your first package of Hardyfood, your history will begin.

Your grocer will sell you a package for 10 cents.

GIRL STUDENT

Who Attempted to Swindle Illinois Bank Goes to Prison—Parents are Wealthy.

Peoria, Ill., Nov. 28.—Miss Elsie Jacobs, the 18-year-old college student of Mount Pleasant, Ia., who attempted to swindle the First National bank of Galesburg out of \$1,000 by means of a bogus check, was sentenced in the circuit court at Galesburg to an indeterminate term in the penitentiary. Miss Jacobs is an unusually attractive girl and comes from wealthy parents.

Well made bricks are most durable building materials. In the British Museum are bricks taken from the ruins of Nineveh and Babylon which show no sign of decay or disintegration, although they were neither burned nor baked, but simply left to dry in the sun.

FOR AN EVENING APPEARANCE.

There is a distinct air of quiet elegance in this evening wrap of a delicate apple green shade of velveteen which expresses itself in every line of the garment. Fashioned of this beautiful lustrous material, it depends little upon elaboration in the way of trimmings for added beauty. The empire mode is attractively carried out by a draped yoke of velveteen to which is attached the full straight skirt beneath a two inch belt, showing a design in roccoco ribbon embroidery in soft pastel shades. The skirt is shirred several times below this belt, and above the hem, which comes within a few inches of the floor, two wide lace bands

in a delicate cream shade are inserted, these turning the corners of the fronts and running up to the bust line, losing themselves beneath a jabot of lace, which cascades from the neck over the bust. A charming feature and one which stamps the coats as truly Parisian is the Capuchin hood of the velvet, lined with ermine, the ermine shaped so as to extend down over the fronts in long, narrow revers. The sleeves are full and shirred in cuff effects at the elbow from which point a circular frill lined with shirred white chiffon, falls over a wide full frill of cream reverse lace, matching the skirt insertions and the front jabot.

THIS AND THAT

Here's wishing the best people on earth—our readers—a happy Thanksgiving day.

These are happy days for the poor speller since the reform movement has become so popular.

The Advocate has been criticised for spelling Orpheum "Orphium". Blame the other fellow, please.

The managers of the circuit embracing Newark decided to spell the word with the letter "i" so as not to conflict with another Orpheum circuit, the name of which is copyrighted.

Nine out of ten still call it "vau-dyville." Why not be right by saying vod-vil with a long o and accent on the first syllable?

And now comes a report from Paris that Madame Gould's cast off Count Boni is employed as a model for a French tailor and incidentally represents a wine merchant. These stories may be untrue but the truth is the count has become a pitiful figure about Paris.

So far as practical benefits are concerned it matters little if Peary did fail to reach the North Pole. Excursions to the pole would hardly become popular.

Grip is on the hunt for early victims.

Holiday bargain hunters find a treat in the Advocate Adv. columns.

Many Newark people are waiting an invitation to spend a day or two in the country. The cider barrel is beginning to become attractive.

So far the weather man has given the lie to the goosebone prophets.

Just to remind you that it's only one more day to turkey and cranberry.

If you think a man's children are intelligent, you ought to get him to tell you about his bird dog—Acheson Globe.

You will enjoy the turkey more if you remember in a substantial way somebody who is unable to buy a square meal tomorrow.

WHITNEY NAMED

As General Passenger and Freight Agent of the Columbus Newark & Zanesville Line.

Columbus, Nov. 28.—Circulars announcing the appointment of W. S. Whitney as general passenger and freight agent of the Indiana, Columbus and Eastern railway, the Cincinnati Northern Traction company and the Lima and Toledo Traction company have been issued by D. G. Edwards, vice president, in charge of traffic of the Schoepf lines. The appointment fills the vacancy created by the resignation of Walter Hurd about four months ago. A. W. Jordan, who has been acting general freight and passenger agent, has been appointed assistant to Mr. Whitney. The appointment becomes effective Dec. 1, and Mr. Whitney's headquarters will be in Columbus. His jurisdiction will extend over the traffic department of the eastern division to and including Zanesville and Newark; over the western division to Richmond, covering London Springfield and Dayton and into Cincinnati and Toledo.

The appointment of Mr. Whitney follows out the former policy of Mr. Edwards, which has been to appoint steam road men to the heads of departments in his branch of the service. Mr. Whitney comes to Columbus from Muncie, Ind., where he has held the position of general freight and passenger agent of the Chicago and Eastern Illinois.

New York Idea and Daughters of Men.

New York, Nov. 28.—"If we can't be decent, let us be graceful," says Mrs. Cynthia Karslake in Langdon Mitchell's "The New York Idea." Graceful she is, most certainly in the hands of Mrs. Fiske at the Lyric theatre, and her good natured, long suffering husband, John Karslake, would be the first to maintain that she treated him decently.

"I have no more heart than a dragon fly," she exclaims, and presently she

SMOKERS NOT EASILY SUITED

Cigarette Manufacturers are Forced to Put Out New Brands to Meet Changing Tastes.

Snufflers are becoming more and more exacting in their taste concerning cigarettes. They demand better workmanship, a higher quality of tobacco and more attractive packages. To meet these demands the manufacturers are forced from time to time to put out new brands. If these change to please the public they make a lot of money. If they do not, they lose both money and opportunity.

Not in years has a new cigarette received such a hearty welcome as that accorded the Mecca, the latest product of the cigarette maker's skill. The manufacturer claims that it represents the high standard of value yet smoked and those who have smoked them are not inclined to dispute the statement. Although the cigarettes have been on the market less than a month it is reported that the factories are having great difficulty in keeping up with the orders. The Mecca cigarettes owe their popularity to their Oriental fragrance, their delicious taste and their moderate price.

proves that in spite of her sharp tongue she is nearly all heart.

Her supposedly divorced husband assures her she has "kicked the stuffing out of the matrimonial buggy." Before the play ends the buggy is in commission again.

She moves through the play, voluble, charming and so consistently inconsistent that she gives the impression that some day she may care more for the prattle of her own nurslings than for the piquant terms of the stable and saddle. This view of her character warrants the dramatist's conclusion of an obvious farce with a touch of serious sentiment.

It is interesting to notice that two new plays of the week—"The New York Idea" and "The Daughters of Men," touch upon subjects of vital present day interest—the first upon divorce, the second upon the relation of labor and capital.

AMUSEMENTS

OUR NEW MINISTER.
Denman Thompson and Geo. W. Ryer had written their comic tale of life in Hardscrabble, N. H., called "Our New Minister," long before Conan Doyle won fame with his Sherlock Holmes stories. Darius Startle, the country detective in "Our New Minister" is a first rate companion piece for Sherlock in detective literature. Where Sherlock always succeeds, Darius, the country detective of the drama, almost always fails, although he knows all the methods of finding out things. Drop a cigar stump on the highway after someone had purloined a can of condensed milk from a country store, and Darius has Hardscrabble town by the ears with the inductions he can evolve from the stump. The role is one of the most amusing that has ever been incorporated in a play and will be seen with the play at the Auditorium on Thanksgiving day matinee and night.

HUMPTY DUMPTY COMING.
Have the biggest laugh of the season at the Auditorium Saturday afternoon and night. Humpty Dumpty is the bill. Don't miss it.

ORPHUM THEATER.
The presentation of "Cleo" as the chief feature of the Orphum bill last night was well received and it bids fair to be the most mystifying creation this season. One may plainly see the creation at all times and this fact only deepens the mystery. At the beginning of the act one sees nothing but an ordinary wooden tripod, plaster bust and some woman's apparel. The manipulation of these things results in the appearance of a dainty woman. Every move of the exhibitor can be seen and the wooden tripod is apparently there. The evolution of the wood, plaster and cloth combination is so skilfully accomplished that it is doubtful if anyone in last night's audience could really explain it.

SPEDON LECTURE.
A good sized audience was present at the Fifth street Baptist church on Tuesday evening to hear Mr. Spedon, the artist, journalist and lecturer, in his talk on "Things We Laugh and Wonder At," illustrated by his own drawings. The lecture was a most enjoyable event, being quite a novel means of entertainment because of the apt and exact illustrations shown by the speaker. Mr. Spedon certainly is a humorist and in his lecture combines wit with interesting facts so carefully that an audience remembers the deeper thoughts conveyed in the smile provoking drawings and expressions of the lecturer.

CHIEF SHERIDAN CONDUCTS EXPERIMENT

Chief Sheridan is working on the alleged attempt to shoot Captain S. K. Hayes last Friday night. That was why passers in front of the new patrol station heard the report of a revolver and saw the glass shatter to the pavement.

The chief is working on the theory that the bullet which struck Mr. Hayes had hit the pavement before striking the window and was therefore not fired at the former business manager of the baseball company. Chief Sheridan conducted the experiments with a 22 caliber revolver scarcely four inches long and the experiment was watched by some newspaper men and Officer Kraver, who was the chief's valuable assistant, neither one of the news writers caring to sacrifice his life to the good of the cause.

That is why it happens that the public learns of how the little revolver recoiled with such force that the chief was hurled backward into a pile of debris in the unfinished building. The laborers in the building will corroborate this statement, and the chief bears a cut wrist as painful evidence of the fact.

The bullet went through the window and was not flattened as was the bullet which struck Captain Hayes.

IMPROVEMENTS AT KUSTER & COMPANY'S

On invitation of Mr. Kuster, Sr., an Advocate reporter inspected the newly remodeled rooms of the famous Kuster restaurant, which has for so many years been so successfully conducted by Mr. Joseph Kuster, Sr., but which is now being conducted under the firm name of Kuster & Co., although the veteran Mr. Kuster is still at the head of the establishment. Mr. Kuster has had the bar room newly remodelled and refitted with up-to-date furnishings. The drainage basins are of enameled copper, and is the work of William Zipperer. The graining and varnishing of the bar proper is the work of that skilled artist, Homer Place. The bookkeeper's office and the office of the cashier, which have heretofore been separated have been thrown into one apartment, which is a great convenience to all concerned. For some time past the dining room has been too small to accommodate the

trade and the front part of the lunch room has been fitted up as an additional dining room. The place has been newly papered, varnished and remodeled throughout and will be in readiness for the big Thanksgiving Day dinner on Thursday.

THROWS BEER BOTTLE; SHOT IN SHOULDER

Zanesville, Nov. 28.—O. C. Cannon, a saloon keeper of Zanesville, was shot in the shoulder by James Ransbottom, his partner in business, during a quarrel.

It is alleged that traveling men were gambling in the saloon and Cannon, being opposed to the practice, remonstrated. He threw a beer bottle at Ransbottom and the latter pulled a revolver and shot.

An X-Ray examination shows that the bullet has lodged near a vital spot and surgeons fear to remove it. He may die.

FAMOUS MANOR HOUSE IN EDENTON, N. C., BUILT BY THE STATE'S FIRST GOVERNOR.

"HAYES," THE FAMOUS MANOR HOUSE OF GOVERNOR SAMUEL JOHNSON AT EDENTON, N. C.

Edenton, N. C., Nov. 28.—This little town nestling for more than a century in the quiet of North Carolina, since the chivalrous days of Sir Walter Raleigh, last week added another chapter to its romantic history. When the body of James Wilson was taken from the old Johnston burying ground to rest in Philadelphia, James Wilson was not the only distinguished patriot and signer of the

Declaration of Independence who once lived here, but he was one of the original members of the Supreme court, and it was fitting that he should have been buried in the little cemetery at Hayes, for no more beautiful spot can be found in all the south.

The manor house in the state compares with Hayes. It was part of the estate of Governor Samuel Johnson, the first chief executive of the state, but who never served in that office,

because he was immediately sent to the United States Senate.

Although the manor was built in 1765, Governor Johnson did not occupy Hayes until 1771. It is in architecture the home of a typical English peer of the period and was called Hayes after the name of Sir Walter Raleigh's home.

It was on these grounds that James Wilson spent his best days, clever writer of law no place could afford him more quiet for that work than Hayes.

INDIAN ELEVEN HAS AN INDIAN BUSINESS MANAGER.

ALFRED M. VENNE

Not only has the Indian eleven been coached by Indians this year, but its business affairs have been managed by Alfred M. Venne, who is a Chipewewa. Effort has been made to establish everything at Carlisle on a thoroughly representative footing, so that it may be said that the Indians are not only competent to instruct their own race in football, but equally competent to handle their affairs of business.

The Indian business manager was born at Leroy, North Dakota, a twenty-six years ago, and although but a young man, served for some time as disciplinarian and band leader at the Fort Totten Indian school in North Dakota. He resigned his position at Fort Totten to come to the Carlisle School, where, after graduation in 1904, he was made assistant physical director.

BOWLING

The Flicker club defeated the Consumers in a close game Tuesday night.

Lenhard had high score and Swartz high average. There were but seven pins difference between the grand totals of the two teams.

"The Shamrock quintet club" of Columbus, leaders of the Buckeye quintet league, defeated the Music Hall team in a close game last night. None of the scores were high.

The program for tonight is the Strollers against the Gimlet club of the city bowling league. The Strollers are now leading the league.

Thanksgiving day will see the Byssville and Cambridge teams here on the Music Hall alleys, afternoon and evening of Turkey day.

O'Brien's Weight.

Los Angeles, Cal., Nov. 28.—Before the Pacific Athletic club of this city "Philadelphia Jack" O'Brien and Tommy Burns will meet Thanksgiving night in a 20-round contest for the championship of the world. The title has been claimed by both men since the retirement of James J. Jeffries, who will act as referee. A purse of \$12,000 has been offered by the club. Of this amount O'Brien receives \$1,200 for signing articles. The balance, \$10,800, is divided so that the winner receives \$5,100 and the loser \$2,700. Both Burns and O'Brien announced themselves as perfectly fit. It is believed that Burns will weigh from 10 to 12 pounds more than his opponent, who tipped the scales at 160 pounds.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs or the kidneys themselves break down and waste away cell by cell.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. CRYING EVILS TEXT OF ELLIS

INEQUALITIES IN TAXATION AND OPPORTUNITIES IN WORLD OF BUSINESS.

Unfair Share of Cost of Government Put Upon Small Homes of Peo- ple of Ohio.

Bucyrus, O., Nov. 28.—Before a representative gathering of citizens in the Vollrath theater, Attorney General Wade H. Ellis delivered an address on two crying evils of the times, unjust taxation and inequality of opportunity in commercial enterprise. The address, which was delivered under the auspices of the Bucyrus board of trade, was well received. Mr. Ellis began by saying there are two classes of men in modern American times that ought to be avoided. The first are those who contend that everything is all wrong, and the second those who declare that everything is all right. He said that no progress can be made, no real steps forward in the eradication of evils that confront us or in the solution of the serious problems before us, under either such leadership. "There are two evils," the speaker said, "which have grown up with the rapid development of the country which most insistently demand serious consideration from those who make and those who enforce the laws. The first of these is the inequality in the distribution of the burdens of government, in other words, taxation; the second, the inequality of opportunity in commercial enterprise caused by the corporate control of industry by combinations in restraint of trade."

Speaking of the inequalities of taxation, and particularly in Ohio, Mr. Ellis said that the tendency for many years in this state has been to put upon real estate, and particularly upon the small homes of the people, an unfair share of the cost of government. He showed that during the last 50 years in Ohio there had been a growing tendency to conceal personal property from taxation so that whereas half a century ago personal property in Ohio amounted to about three-fifths that of real estate, it now amounts to less than two-fifths. He dwelt upon the concealment of all forms of intangible property in taxation and even with respect to such personal property as merchants' and manufacturers' stocks he showed that there was less return in Ohio today than 25 years ago. But the corporations of the state, he said, are the chief beneficiaries of this discrimination. The railroads, steam and electric, the express, telegraph and telephone companies, the gas companies and other corporations of Ohio engaged purely in a public service have outstanding more than \$1,000,000,000 of stocks and bonds, while domestic corporations of this state not so classed, such as manufacturing and industrial enterprises, and capitalized according to the books of the secretary of state to the amount of \$200,000,000, and bonded to the third of that amount; and yet all these corporations combined returned for taxation last year but \$300,000,000 worth of property. That is to say, the stock and bond issues of all corporations in Ohio amount to nearly \$1,000,000,000, and they pay for taxation but \$300,000,000, although the corporations return for taxation about one-eighth of the total wealth.

Values of Corporate Property. Mr. Ellis referred at length to the appointment by Governor Harris of the new tax commission, whose duty it is to study the system of taxation in Ohio and report in time for the next general assembly recommendations for its improvement. He said one of the most important questions before the commission is to find a way by which the remnant of a levy upon all the real and personal property for purely state purposes might be abolished. This levy was reduced in 1902 from 2.89 mills on the dollar to 1.35, and this was still further reduced by a small fraction last year. This levy upon all real and personal property for state purposes produces \$3,000,000 per annum, used solely for the support of the common schools and universities. Special excise and privilege taxes under the Willis law and the Cole law, imposed upon certain classes of corporations; the Johnson law imposed upon the business of foreign insurance companies; and the Dow-Aiken law directed against the sale of intoxicating liquors and other miscellaneous sources, now produce in round numbers about \$7,000,000 per annum, making a total of \$10,000,000 per year. The annual cost of running the state government is in round numbers \$9,000,000, so that we are now taking in about \$1,000,000 per annum more than present necessities require us to pay out, and we have today \$3,750,000 in the treasury. It is apparent, therefore, that unless some change should be made in existing laws or in existing conditions which would decrease the excise and corporation taxes, the time has come when we can safely consider the prospect of abolishing altogether the state tax levy and relying entirely on special franchise or privilege fees to support the state government, including the school system.

COMPARE QUALITY EVERY TIME YOU COMPARE PRICE, AND YOU WILL CONTINUE TO BUY WATCHES FROM HAYNES BROS.

That you cannot get SOMETHING for nothing is positive. In the watch business, that the PUNISHMENT (quality) is made to fit the CRIME (price) is POSITIVE. That HAYNES BROS.' watches are the best for the money is EQUALLY SO.

port the state government, including the school system. This abolishment of the state levy would not, of course, avoid the present injustice to the owners of real estate which comes from local extravagance and the levy upon tangible property for purely county and municipal purposes. And here is where the chief evil is to be found, for while the state of Ohio spends about \$9,000,000 per year for state purposes, the counties, municipalities, school districts and townships spend about \$50,000,000 a year for local purposes, so that relief from excessive or unfair tax bills for local purposes is seven times as important as is such relief from the burdens levied for state purposes. In this connection Mr. Ellis suggested a consideration of some plan by which the franchise values of corporate property may be uniformly regarded in fixing the value upon the visible property itself. In other words, he suggested that in arriving at the value of the property of steam and electric railroads, gas and other lighting and fuel companies, pipe line companies, and all corporations whose property depends peculiarly for its returns to the investors upon the uses to which it is put, there may be taken into consideration as there is now supposed to be with respect to express, telegraph and telephone companies, the market value of its stocks and bonds. If this were done it is estimated that \$800,000,000 to \$750,000,000 worth of property which now escapes taxation altogether would be added to the local duplicates, and this would reduce the local tax bills by more than 50 per cent. He did not argue for the taxation of stocks of domestic corporations in Ohio whose property is already taxed, nor did he propose the taxation of industrial bonds at their par value, either of which would be manifestly unfair to the corporations, but suggested merely that if a street railroad company, for example, has \$300,000 worth of tracks and cars and power houses and equipment, and \$1,000,000 worth of stock and \$1,000,000 worth of bonds, both of which are worth par in the market, the property of such a company ought not to be assessed for taxation for \$1,000,000, as is now done under the laws and custom in this state, but that the value of such tracks and cars and power houses and equipment should have some fair and reasonable relation to their earning capacity for the uses to which they are put, as capitalized in the stocks and bonds of the company, and some fair and reasonable relation to what it would cost to buy the control of that property through the purchase of its shares of stock.

Standard Oil Suits. The attorney general discussed the corporate control of national wealth through the organization of combines in restraint of trade, and the state and federal actions now pending against the Standard Oil trust and other monopolies. Referring to the pending suits against the Standard Oil trust by the state of Ohio and the federal government, Mr. Ellis indicated that there was entire harmony in the purpose to be achieved. He said that there was and ought to be no disposition on the part of either national or state authorities to persecute the Standard Oil trust, to destroy investments, to injure business, to paralyze industry or to attack capital simply because it happens to be in the hands of a few men. With respect to the prosecutions in Ohio which have been brought by the attorney general he said there was no desire on the part of the state to drive the Standard Oil company from Ohio. "Indeed," he said, "the desire is that they shall remain in Ohio, that we may have the advantage of their capital, their business energy and the employment of labor as well as the development of a great natural source of wealth." But, while the purpose was not to destroy the Standard Oil investments or drive the corporations from the state, there was another purpose that as firmly resolved upon, and that was that while the Standard Oil companies remain in Ohio they shall obey the law and public policy of the state just as the humblest individual in the land.

Of Mr. Ellis, in conclusion, "the destruction of these combines in restraint of trade will not bring the millennium. There will still be wrongs to be righted; there will still be crimes to be punished; there will still be selfishness in human nature; and there will still be those who have the power to do wrong. But at least we will take a step forward toward that day when there will be something like an equal opportunity for every man, rich and poor, to seek, to acquire and to hold the fair returns of his genius and his labor. And, after all, it is the duty of every citizen to do his best to help to bring about the day when the folly of Socialism in America is to secure a fairly-impured individualism; and the surest way to avert the clamor for 'a square meal' is to heed the clamor for 'a square deal.'"

Christian Science Lecture.

A lecture, on Christian Science, will be given under the auspices of "First Church of Christ, Scientist," of this city. Like every new religious movement, Christian Science has been subject to misrepresentation, and it is the purpose of these lectures, not to proselyte, but to correct as far as possible the erroneous ideas which are due to a misconception of this religion.

The lecturer will be Edward A. Kimball of Chicago, Ill., member of the "Christian Science Board of Lectureship," of "The First Church of Christ, Scientist," in Boston, Mass. The public has had the pleasure of listening to this scholarly speaker on one or two previous occasions, and will, no doubt, welcome the opportunity of hearing him again, on other phases of his chosen subject. Special invitations will not be issued but all are cordially invited. Friday evening November 30, 8 o'clock Auditorium Admission free. 11-26dtf

There was a large attendance at the Presbyterian church Sunday, morning and evening.

There will be services in the M. E. church Sunday night. Miss Mina Lovett, sister of E. T. Lovett, is visiting friends here. Mr. A. D. Preston and Lewis of Coshocton, were guests of their father, Bernard Preston, over Sunday.

The primary schools have prepared a special program for Thanksgiving, to be given Wednesday afternoon.

Mr. and Mrs. Preston of Pennsylvania are visiting in this vicinity.

Mr. E. S. Crawford made a business trip to Chicago last Saturday.

Mr. John Funk and family have moved to Mr. George Preston's farm.

Mr. and Mrs. Sep Divan and niece Gertrude spent Friday and Saturday with W. A. Noland.

WHAT'S DOING IN BUCKEYEDOM

Woman Fatally Burned.

Sandusky, O., Nov. 28.—A patent polish purchased from a peddler exploded while Mrs. James Miller, 70, a widow residing near Bloomingville, was brushing up her kitchen stove in which there were a few hot coals. Mrs. Miller's clothing took fire and she was fatally burned.

Struck On the Head.

Kenton, O., Nov. 28.—B. F. Wollington, a prominent contractor, while standing near a house that was being moved, was struck on the head with a ladder which fell from the roof and his skull fractured. His injury is considered fatal.

Two Hundred Quit.

Cincinnati, O., Nov. 28.—Two hundred saloons will close in Cincinnati before Dec. 20, when the time for the payment of the second installment of the Alkin tax expires. This will bring the total in the city and county down to 1,500.

Lost Two Barges.

Portsmouth, O., Nov. 28.—The towboat Joseph Williams lost two barges of coal, four miles east of here, by the high wind. The barges contained 22,000 tons, and the crew had a strenuous time in saving the big tow.

Took Carbolic Acid.

Dayton, O., Nov. 28.—Della Welch, 28, single, committed suicide by taking a quantity of carbolic acid. She was despondent over a quarrel with her lover, Charles Balser.

Thwarted by Brother.

West Union, O., Nov. 28.—While returning home from church at Wrightsville, seven miles from here, Isaac Jones perhaps fatally shot Joe Thorte, who had opened fire on Jones' sister Ida. The shooting grew out of a former affair of Thorte's in which the Jones girl gave damaging testimony against him. Thorte is now out on parole.

Was With Blinky Morgan.

Columbus, O., Nov. 28.—Michael McGovern, last member of the famous "Blinky" Morgan gang, with the exception of Charles Lowery, serving a term in the penitentiary, was released today and will go home for Thanksgiving. "Mickey" was sent up in 1901 to serve eight years for burglary and larceny from Starke county.

Mayor Johnson Alleges Libel.

Cleveland, O., Nov. 28.—Mayor Tom L. Johnson has filed suit for \$500,000 damages in a libel suit against the Cleveland Electric Railway company. The case is based on an editorial from the Chicago Journal printed by the railway company in an advertisement in three Cleveland papers. The Chicago Journal was sued by Johnson in Chicago for \$100,000. In this advertisement the Cleveland Electric company, quoting the Chicago Journal, printed that "A three-cent fare railroad is an impossible proposition in the United States" and it calls Mayor Johnson "The Fat Cadaver of Cleveland" and "That Adroit Adventurer."

Handcuffed, but Escaped.

Lima, O., Nov. 28.—Wandering somewhere in the northern part of Indiana, his hands manacled in the latest improved handcuffs, is Glenn Watson, who was turned over to South Millford authorities by the authorities here. Watson was arrested on grand larceny charge and escorted to the state line. On the excuse of wanting a breath of fresh air he was granted permission to stand a moment on the car platform. In a flash he leaped from the train, which was going 40 miles an hour, and escaped, handcuffed and all.

Special Legislation.

Columbus, O., Nov. 28.—The special law applying to Cuyahoga county and providing that the commissioners there may extend the time for the payment of taxes from Dec. 20 to Jan. 20 and June 20 to July 20, was declared unconstitutional by the state supreme court. The decision was made in the case of J. P. Madigan, treasurer of Cuyahoga county, against the state ex rel. Fred C. Beyers. The Cuyahoga courts sustained the commissioners, but the supreme court reversed the lower courts.

Licentious Compact.

Columbus, O., Nov. 28.—Information from sources in both Columbus and Cleveland reached Juvenile Judge Samuel L. Black of this city that there is a regular traffic in young girls of these cities by keepers of resorts, who act in conjunction with one another. A Cleveland official stated: "When girls of the Forest City are put on probation by the Cleveland authorities they are often transferred by the keepers of houses to Columbus, and the Columbus women in turn return the compliment."

Former Appleyard Manager.

Columbus, O., Nov. 28.—News was received here that Richard Emory, former manager of the Appleyard syndicate lines of electric railroads, with headquarters in this city, died suddenly in San Jose, Cal. Mr. Emory had not been ill and his death was a shock to his friends. At the time of his death he was manager of the San Jose electric streetcar lines. Mr. Emory came to Columbus from Detroit in 1902, and was manager of the Appleyard lines for two years.

Neck Broken.

Sidney, O., Nov. 28.—As Edward Moyer, son of George Moyer, in the western part of the county, was returning from hauling a load of hay to

Four Miners Caught.

Caldwell, O., Nov. 28.—Mason Dyer, Henry Bond, Eugene Hutchins and Ernest Smith, employed in Imperial coal mine at Bellevue, three miles from here, were horribly burned by an explosion of a 25-pound keg of powder. The exploding powder, which was in a very small room in the mine, set fire to the men's clothing.

DRILLING FOR GAS
THEY FOUND COAL

NINE AND SEVEN FOOT VEINS
ARE LOCATED IN WELL AT
SUMMIT STATION.

Extent and Value of the Strike Can
Only be Ascertained by More
Drilling.

Summit Station, O., Nov. 28.—The people of this place were surprised when the news was spread abroad that the drillers putting down the gas well on the William Morrison farm just west of this place, had struck a nine foot vein of coal at a depth of 197 feet, and a seven foot vein at the depth of 309 feet. If the find proves to be a good one, this place will have one of the best coal fields in Ohio. As yet it is not known whether Mr. Morrison will put down a shaft, and operate the mines. It will surely be a boom for Summit and vicinity. The well is near the railroad and would need very little track to reach it.

It may be the coal found here is only a "pocket". It will take a number of drillings to establish the extent and value of the find.

Mr. Morrison on whose farm near Black Lick the coal was found has the credit of pulling the throttle on the first locomotive that was run on the old B. & O. construction train. He ran an engine for three years, then bought a farm and cut wood and sold it to fire boilers for the same road. He now says he will furnish the company with coal and will not say but gas and oil. The road extends through his farm of 730 acres.

GRANVILLE NEWS

Granville, Nov. 28.—The Granville Festival Chorus of one hundred voices is in condition and the weekly rehearsals in Recital hall under the inspiring leadership of Prof. A. L. Judson are a pleasure and benefit to all concerned. The unusually gratifying results of the three months' practice will be fully manifest at the first concert Monday evening, December 17th, when "The Nativity" will be sung with orchestral accompaniment. This is a Christian cantata of a high order of merit, pleasing and melodious in the extreme, and entirely new to Granville audiences, containing some inspiring choruses, and beautiful solos. The chorus is in unusually good condition, the orchestra the best the conservatory has ever yet organized, both being accurate and responsive while the soloists, all except one, have recently been connected with the conservatory and have won a high place in the regard of the Granville people: Miss Mabel Phillips, soprano; Miss Elsie Hirschberg, contralto; Mr. W. W. Flora, tenor; Mr. S. Harold Thomas, baritone. The concert will be given in Recital hall Monday evening, December 17 at 8 o'clock. Admission, 25 cents for reserved seats.

PARIS CAST.

According to Surgical Data Only
Fourteen Other Cases Where
Injury Was Not Fatal.

A Dayton, Ohio, message says that Alonzo Souslin, the former Newark grocer who broke his neck a few weeks ago at the National Cash Register factory, is now circulating among his friends wearing a plaster of Paris collar. Mr. Souslin left the Miami Hospital a few days ago.

There are few people living with a broken neck who are able to attend to their regular duties. Mr. Souslin is a remarkable example. It is claimed that if he turns his head suddenly almost instantaneous death will follow. He experiences no pain, except a twitching in the back and shoulders.

According to surgical data there are but 14 other cases in the world of persons living with broken necks. The doctors hope to be able to remove the plaster cast from his neck later.

Replying to a message of inquiry concerning the condition of Dr. D. B. Purinton, former president of Denison university, Granville, Mr. Purinton sends the following telegram to the Advocate Wednesday noon:

Morgantown, W. Va., Nov. 28.—Mr. Purinton has serious catarrhal pneumonia, but his condition is encouraging on this, the fifth day.

JAMES J. KEELEY
HAS BAD FALL

PITCHES HEADLONG FOURTEEN
FEET ESCAPING DEATH BY
A MIRACLE.

Former Newark Man's Skull Fractured, But Doctors Say He Will Soon Recover.

Pitching headforemost a distance of 14 feet to a cement floor, Alderman James J. Keeley, a former Newark man, brother of Mr. Jerry Keeley of the firm of Bailey & Keeley, escaped death by a narrow margin on Tuesday evening about 7 o'clock, at Jackson, Mich. Mr. Keeley sustained a frightful gash in his scalp, a fracture of the outer table of the skull, and numerous other injuries of minor consequence.

The accident occurred in a small building in the rear of the alderman's residence, 511 Jackson street, at Jackson, where the plant is located which supplies the house with steam heat. Mr. Keeley is a large, heavy man; the floor from which he fell is eight feet above the concrete floor, and since Mr. Keeley's height is nearly six feet, it is difficult to understand how he escaped being instantly killed. Mr. Keeley tells the story of the accident himself as follows:

"I left the house immediately after supper to tend to the fire in the heating plant. I had ordered an electric light placed in the boiler room, but it had not yet been installed, so I was compelled to carry a small lamp. While adjusting the flame of the lamp I made a misstep and remembering falling head first in the darkness. When I had partly regained consciousness I did not know where I was and tried to make my way out of the boiler pit by crawling over a pile of coke. Then the thought came to me that I would not be missed for several hours as it was a common thing for me to work evenings in the office. I summoned all my strength and got into the house, although I can't tell just how I managed to do it."

"When the injured man appeared, in a dazed condition and with the blood streaming from the wound on the head, Mrs. Keeley was horror-stricken by the spectacle.

Dr. H. D. Brown was summoned, found that a jagged wound six inches in length had been cut in the scalp, and that the skull was cracked, although fortunately not deep enough to require to close the scalp wound. Mr. Keeley also received painful bruises on the other parts of his body.

"That a man could live after a fall of that sort is nothing short of miraculous," said the doctor. "It is hard to explain how the alderman retained consciousness sufficiently to walk into the house after the accident."

The alderman is resting quietly at his home, but it will be some time before he will be able to attend to business.

MR. JOSEPH HONORED

Pataskala Masons Elect Him Worshipful Master Despite Absence at Their Meeting.

W. E. Joseph, secretary of the Masonic Temple association and officer in various Scottish Rite and Shrine bodies, received an honor which afforded him and his friends much satisfaction Tuesday evening when he was elected worshipful master of Pataskala lodge No. 101, F. & A. M.

Pataskala is his old home, but he has been in Columbus for years, and because of his duties at the temple, has had little opportunity to visit his blue lodge. Nevertheless his former associates tendered him the highest office at their disposal.

Other officers elected include: J. M. Friend Jr., senior warden; E. A. Frankenberg, junior warden; S. C. Manger, treasurer; Richard Conine, secretary; J. S. Irwin, senior deacon; C. W. Reethorn, junior deacon, and C. D. Youmans, tyler.

WEDDINGS.

SCHWARTZ-CAIN.
In their own home at No. 369 1-2 East Main street, last Tuesday evening at 7 o'clock, Miss Laura M. Cain was married to Mr. A. D. Schwartz. The immediate families and friends of both parties witnessed the ceremony which was solemnized by Rev. J. C. Schindel, pastor of St. Paul's Lutheran church. After a brief visit at Pittsburg, they will be at home to their many friends.

HARDWAY-MARTIN.
Miss Vera E., oldest daughter of W. H. and Anna A. Martin, was married Tuesday evening at 7:30 to Mr. Stanley W. Hardway. The ceremony was solemnized at the home of the bride, No. 381 Eastern avenue, Mr. Walter L. Martin, brother of the bride, acting as groomsmen, and Miss Tena Bailey of Lancaster, O., as bridesmaid. The full ring service was used, Rev. J. C. Schindel officiating. These worthy young people were the recipients of many handsome and useful wedding gifts. Many friends are wishing them a long and happy married life. They will make their temporary home with the bride's parents.

DOUGHTY-STACKELHAUS.
Miss Elizabeth Stackelhaus, daughter of John and Mary Grefferman, was married Tuesday evening at 8 o'clock, to Mr. Thomas H. Doughty. The ceremony was solemnized at St. Paul's Lutheran parsonage, No. 117 North Fourth street, by Rev. J. C. Schindel, pastor of the bride. They were accompanied by Miss Mary Young and Mr. John E. Doughty, a brother of the groom. Immediately after the ceremony Mr. and Mrs. Doughty left for their new home at Terra Haute, Ind.

SHUMAN-RUHL.
Mr. Roscoe W. Shuman, general secretary of the Newark Y. M. C. A., will be married at Covington, O., tonight to Miss Eva May Ruhl.

SIMPSON-FLENNER.
Perryton, O., Nov. 28.—A pretty home wedding was solemnized Tuesday, November 27, at high noon, at the home of Mr. L. G. Flenner, when his daughter, Miss Daisy, became the bride of Mr. John Simpson of Mt. Vernon. The ceremony was performed by Rev. R. Kilpatrick, pastor of the Christian church at Roseville, in the presence of a few friends, and the members of the family. The bride was attired in a costume of white crepe de Paris, and carried a bouquet of white chrysanthemums. After congratulations and best wishes a dainty luncheon was served. Mr. and Mrs. Simpson left at an early hour for Portsmouth, the home of the groom's father, where they will visit for a few days. After their return they will make their home in Mt. Vernon.

SIX WEEKS TOUR
THROUGH EUROPE

WHOLE THING FOR SMALL SUM
OF ONE HUNDRED AND
TWENTY DOLLARS.

Tempting Offer Received by Number
of Newark People But Did
Any One Bite?

The postal authorities have issued orders that the mail of the European Excursion company, operating from Cleveland, be held up for investigation. The headquarters of this concern is in New York, and within the last few weeks tons of literature has been circulated in Ohio, offering a six weeks' tour through Europe for \$120. This small amount was to include all charges for a first-class trip with the exception of "laundry and alcoholic beverages."

The concern demanded an advance monthly payment of \$20 which in a great number of instances was forthcoming to the satisfaction of the swindler, a man named Goldsmith, who was sick enough to tie himself to the "elongated verbiage" when he learned that an investigation was to be conducted.

It is learned that several people in Newark and Granville, including a number of ministers and school teachers, received the tempting circular letters from the concern, but if any of them "bit" they have been prudent enough to say nothing about it.

Detectives are on the lookout for the man Goldsmith, who rendered his resignation by mail, with the advice that his employees had better leave, but as they appear to have engaged in the work in good faith, they will probably escape trouble.

The propositions received in Newark were typewritten on splendid stationery and everything about the letter indicates good faith except the price. When one gets an offer of a six weeks' European trip at \$120 payable on the installment plan—in advance—it will pay to look a little out.
